“I Can Read!” Program:

We will begin this beneficial and fun program in October! The reading program is the one part of our “homework” that we encourage you to participate in, above all. The ability to read (including vocabulary, understanding, self-expression and letter recognition) increases by an average of 80% in the children who do participate in the home component of our reading curriculum.

To expose the children to more books and frequency in reading we challenge each family to 200 nights of reading! You can choose to read a story to your child or they can read one to you.

Every time 50 nights is completed; you child will return their book to their teachers and get to select a prize from the treasure chest. Good luck!

Your child's schedule:

The beginning of a school year is a busy, busy time for families and teachers alike and we gratefully ask that you keep this in mind when adjusting to the new routine. In the same manner

please remember that your children are working, learning and being stimulated for many hours each day and you may notice that they are more tired in the evenings or in the mornings. Because we have noticed this in the past, we are pre-emptively suggesting that if you see this happening, you might like to look at shortening the length of your child's school day or providing more hours of rest. Our classroom could be very fast-paced and stimulating and while we do not intend for the children to miss activities as a result of going home too early, we can say that the core of our academic program is taught between 9:00 am and 4:00 pm. If at all possible, we suggest that your child's day be no longer than 8 hours and preferably within that time frame.

Check your mail!

Remember to check your "mail" each day. The box under the parent board has a file in it for each child and this is where important inter-school messages and administrative information is placed for you, as well as your child's art from the day.
