

## Afternoon Kids Club at CEFA® Morgan Crossing East Campus

Tailored for kids aged 5–10 with programming and activities that stimulate their development and curiosity.

**Afternoon Kids Club** includes:

- **After School Programming** (2:30 pm to 6:00 pm)
- **Afternoon Pick-ups** (at select elementary schools)
- **Homework Help**
- **Educational Programming**

Kids Club is camp-based and designed to expand curiosity.

Each month children learn and play while exploring a given theme. This educational deep dive provides children with in-depth exposure to a diverse selection of challenging, and age-appropriate themed activities. The schedule allows enough time for children to achieve meaningful learning objectives, advance their skills on a particular topic, and help expand their curiosity.

We teach using a proprietary methodology.

Teachers participate in advanced training which uses a proprietary methodology that is motivational, inspiring, exciting, and fun for kids. At young ages, learning must be fun and full of play! It fosters better comprehension, participation, and retention.
